**NEW YORK BULLETIN NY180-03-13**

**SUBJECT: CPA - CONSERVATION PRACTICE GUIDELINES**

Purpose: To release conservation practice guidelines to Field Offices.

Expiration Date: This bulletin expires on September 30, 2003.

Background:

Conservation practice guidelines are documents that accompany conservation practice standards, conservation practice specifications, and job sheets. They are designed to provide instructions and guidance on how to design a practice or complete a common process related to implementing conservation practices in New York.

This bulletin transmits the following Practice Guidelines:

<u>STANDARD OR PROCESS NAME</u>	<u>STANDARD NO.</u>
Roof Runoff Structure	558
Underground Outlet	620

Filing Instructions:

Use the NRCS electronic Field Office Technical Guide (eFOTG) website at the following address: <http://www.nrcs.usda.gov/technical/efotg/> to download the documents and print. Insert the guidelines in alphabetical order for easy reference.

As suggested in the May 2003 Practice Guidelines Release Bulletin, please file these guidelines in the separate three ring binder titled "Practice Guidelines". For ease of reference, maintain this binder and all release notices with the NHCP and the Practice Specifications.

These Guidelines are considered part of Section IV of the Field Office Technical Guide (FOTG) and will be maintained according to National and State FOTG policy.

Please contact William Elder, Resource Conservationist if you have any questions regarding this bulletin or the attachments.
